## Teacher's Day: A Joyful Tribute from the Hearts of Children

The Primary School came alive with joy and gratitude as our young learners celebrated **Teacher's Day** in a truly heart-warming way. With bright smiles, cheerful voices, and endless enthusiasm, the children expressed their love and respect for their teachers through songs, dances, poems, and handmade cards.

Every performance carried a simple but powerful message: "Thank you, teachers, for guiding us, inspiring us, and making learning so much fun!" The little ones poured their hearts into each gesture, making the day unforgettable for the entire faculty.

The celebration was more than just a programme—it was a reminder of the beautiful bond between teachers and students. Filled with laughter, appreciation, and affection, the day reflected the spirit of **gratitude and joy** that makes Teacher's Day so special.

At SGIS Primary, our children truly showed that the best gift a teacher can receive is the love of their students!

## A Day of Respect, Joy, and Learning

On the joyous occasion of Teacher's Day, our young learners expressed their happiness by engaging in study sessions with their beloved teachers. The day was filled with warmth and gratitude as children enjoyed learning in a lively and cheerful atmosphere. Their smiles reflected the special bond they share with their teachers, making the celebration truly meaningful.

## Building Readers, Shaping Thinkers

Our young learners embarked on an exciting visit to the library, stepping into a world where curiosity truly meets books. Surrounded by shelves filled with stories, knowledge, and imagination, the children eagerly explored different genres, flipped through colorful pages, and discovered the joy of reading. The quiet atmosphere inspired focus, while the variety of books sparked questions, wonder, and lively discussions. This visit was not just about borrowing books—it was about nurturing a lifelong love for reading and opening doors to endless possibilities.

## Evening Explorer: Where Curiosity Comes Alive!

At SGIS, learning never stops—and now, it shines even brighter with the launch of our **Evening Explorer** sessions! Designed especially for our young boarders, Evening Explorer brings short, exciting, and meaningful presentations by our own teachers after school hours.

The Evening Explorer programme at the Holding House began on an inspiring note with Housemaster Mr. Ajay Shrotriya’s session on the birds of SGIS. Through a lively slideshow, children discovered names, songs, and unique traits of campus birds like sparrows, peacocks, and drongos. The talk sparked unexpected enthusiasm—students are now keen birdwatchers, spotting species and sharing facts during free time. This debut session has set the tone for Evening Explorer, promising to blend curiosity, joy, and meaningful learning in the weeks ahead.

Evening Explorer is not just about information—it is about **curiosity, joy, and inspiration**. It creates a shared space where teachers bring their expertise, and children discover new worlds beyond the classroom.

We look forward to many more evenings filled with discovery, storytelling, and imagination—because at SGIS, curiosity truly comes alive!

## A Yummy Day Out!

Our primary students experienced a delightful luncheon during their special outing to a hotel. From the moment they entered, the elegant setting, welcoming ambience, and inviting aromas created an air of excitement. Seated at neatly arranged tables, the children savored a variety of dishes, explored new flavors, and enjoyed the joy of dining together. Beyond the delicious food, the occasion fostered laughter, bonding, and cherished memories.

## From Purification to Conservation

Our Grade 2 learners participated in an engaging lesson on Water Purification. With curiosity and enthusiasm, they observed and compared the school’s water purification system with other methods, gaining valuable insights into how clean and safe water is made available for daily use. The activity not only deepened their understanding of purification techniques but also instilled awareness about the importance of conserving water. Learners reflected thoughtfully on practical ways to reduce wastage, such as turning off taps when not in use and reusing water whenever possible. This meaningful experience nurtured both scientific inquiry and a sense of responsibility towards sustainable living.

# Every Birthday, A Memory to Treasure

At SGIS, every child is special, and so is their birthday! Our school makes sure that each birthday becomes a day to remember, filled with joy, laughter, and togetherness.

The celebrations begin with warm wishes from teachers and friends, followed by cheerful songs that make the birthday child feel truly loved. The smiles, laughter, and shared treats turn the day into a happy memory that stays in their hearts.

By celebrating birthdays in school, we not only spread happiness but also teach children the joy of sharing, caring, and being part of a community. It's these little moments of celebration that create a big sense of belonging and make school life extra special!
